## BENEFITS

### WHERE'S MY EQUIPMENT?

- Locate valuable equipment
- Improve response times
- Plan field operations

### WHERE'S MY PROFIT?

- Confirm service delivery
- Verify rental invoices
- Avoid billing disputes

### WHERE'S MY RISK?

- Ensure equipment is certified
- Confirm maintenance is current
- Reduce downtime on jobs

### WHERE'S MY OPPORTUNITY?

- Turn equipment faster
- Increase asset utilization
- Cut capital expenses

## MOBILE APP

Mobile field operations demand mobile field tools and applications. As such, Geoforce is proud to offer mobile solutions that bring our award winning Track and Trace applications to the field. Download the free app on your smart device and put control at your fingertips today.

Geoforce was founded in 2007 with the simple belief that the chaos and pain of field operations could be alleviated with technology. Since 2007, our mission has been to build the largest global network of connected field assets to provide operational intelligence to companies involved in field operations around the world.

Combining a cloud-based software platform with rugged GPS devices and global satellite and cellular networks, Geoforce's Track and Trace solutions include efficient asset location and retrieval, rental invoice auditing, service delivery verification, inspection compliance, equipment maintenance alerts, and a host of others.

Because field operations don't have to be chaotic
